

2008 Healthy Youth Survey-Form C

We are asking you to take part in this survey about issues facing students in communities in Washington. The questions in this survey ask for your opinions about yourself, your friends, your school, and your neighborhood. School, community, county, and state officials will use the information from this survey in planning future programs to help youth.

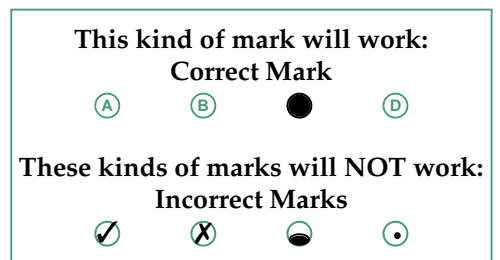

Your answers to these questions are *anonymous*. This means that no one will know how you answered or which answer sheet is yours. **Do not write your name anywhere on the answer sheet.** If you do not want to take this survey now, tell your teacher and you will be given an alternative activity.

Some of the questions are personal, such as asking about your relationships and whether you get in fights or use drugs. Some students may find some of the questions uncomfortable or upsetting. You will be given a list of numbers to call if you want to talk to someone about the survey or feelings it brings up. The survey is completely voluntary. You don't have to do this survey. You may skip any question you do not wish to answer or stop at any time. It will not affect your grades. Other students have said this survey is interesting and they enjoyed filling it out. We hope you will too. If you have any questions about this survey you may ask your teacher before beginning. Please take a minute to read the instructions below before starting the survey.

Instructions

1. This is not a test, so there are no right or wrong answers.
2. The questions should be answered by marking one of the answer spaces on the answer sheet. If you don't find an answer that fits exactly, use one that comes closest. If any question does not apply to you, or you are not sure of what it means, just leave it blank.
