

2014 Healthy Youth Survey Results - Errata

April 14th, 2015

Erratum 2: Source of Marijuana.

A coding error affecting the results of the “source of marijuana” question was discovered after publication of the March 1st, 2015 reports. The impact of the error was to inadvertently include a small number of responses that should have been “missing” to the denominator of each statistic. Table 1a and 1b compare the corrected survey results, posted on www.AskHYS.net on April 14th, 2015, to the original results. In all response categories, the percentages increased as the size of the denominators (and the “n”) decreased.
