Washington State Healthy Youth E-Survey Pilot 2019

Our school is participating in a pilot of an electronic version of Washington State Healthy Youth Survey during fall 2019. The survey will be given to students in Grades 6, 8, 10 and 12 in large districts and students in Grades 6 through 12 in small school districts.

The Healthy Youth Survey includes questions related to physical activity and diet, unintentional and intentional injury, substance use, risk and protective factors, access to school-based services, and sexual behaviors, abuse and orientation. Survey results are used by schools, communities and state agencies to plan programs to support our youth and reduce their risks.

Participation in the survey is voluntary and the students' answers are anonymous.

Please read the [Parent and Student Notification Letter](#) for more information about the Healthy Youth Survey.
